Summary:

- I'm a passionate and highly motivated Computer Science student in my pre-final year, with a strong enthusiasm for front-end development. I've honed my skills and gained valuable experience in creating user-friendly web interfaces through web development. HTML(HTML5), CSS, Bootstrap, and React JS are the tools of my trade, also, with good experience in git and GitHub, I thrive on turning design concepts into interactive, responsive, and visually stunning web applications and websites.
- I believe in the power of teamwork and effective communication. Working with cross-functional teams to bring ideas to life is something I value immensely. I'm passionate about making a positive impact through technology and excited to explore new opportunities and challenges. My journey in the world of technology has been enriching, and I'm excited to share it with you.
- I'm always open to networking, sharing insights, and collaborating on exciting projects. Whether you're interested in discussing the latest tech trends or exploring potential collaborations, feel free to connect with me.

Declaration:

I hereby confirm that the information given is true to the best of my knowledge.
